RE: CC Docket No. 96-128, Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996, Comparably Efficient Interconnection Plan for the Provision of Basic Telephone Service

Dear Mr. Caton:

The attached letters were sent to interexchange carriers by Nevada Bell notifying them of Nevada Bell's satisfaction of all requirements entitling it to interim compensation due payphone service providers associated with the above referenced proceeding.

Please include these letters in the record of this proceeding in accordance with Section 1.1206(a)(1) of the Commission's Rules.

Acknowledgment and date of receipt of this notice are requested. A duplicate copy is attached for this purpose.

Please contact me on (202) 326-8879 if you have any questions concerning this matter.

Very truly yours,

Federal Communications Commission
Office of Secretary

Nevada Bell hereby certifies that it has met the requirements established by the Federal Communications Commission to receive compensation from carriers. These requirements are set forth in the Report and Order (September 20, 1996), the Order on Reconsideration (November 8, 1996), and subsequent orders (April 4, 1997 and April 15, 1997), collectively the ("Payphone Orders"). Specifically, Nevada Bell certifies the following:

- 1) Nevada Bell has an effective cost accounting manual ("CAM") filing treating payphones as a nonregulated service.
- 2) Nevada Bell has an effective interstate CCL tariff reflecting a reduction for deregulated payphone costs and reflecting additional multiline subscriber line charge ("SLC") revenue.
- 3) The Public Service Commission of Nevada has determined that Nevada Bell's intrastate tariffs do not contain subsidies for the recovery of any costs for its payphone services.
- 4) Nevada Bell has deregulated and reclassified the value of payphone customer premises equipment ("CPE") and related costs as required in the Payphone Orders.
- 5) Nevada Bell has in effect intrastate tariffs for basic payphone services (for "dumb" and "smart" payphones).
- 6) Nevada Bell has in effect intrastate tariffs for unbundled functionalities associated with those lines.
- 7) Nevada Bell has filed interstate tariffs for unbundled functionalities associated with those lines.

- 8) Nevada Bell has an approved Comparably Efficient Interconnection (CEI) Plan for basic payphone services and unbundled functionalities.
- 9) Nevada Bell's intrastate payphone service provider tariffs meet the "new services test" as described in 47 C.F.R. Section 61.49(g)(2). Nevada Bell submitted data to the Public Service Commission of Nevada by letter dated April 15 and reconfirmed this information by letter dated May 19.

Accordingly, Nevada Bell is in full compliance with the requirements set forth in the Payphone Orders. It is, therefore, eligible to receive compensation from carriers as of April 15, 1997. In accordance with the Payphone Orders, carriers are required to pay flat rate compensation until October 7, 1997, and per call compensation thereafter. Nevada Bell's compliance with the above requirements is further detailed in the attachment to this letter, together with copies of the relevant orders.

Very truly yours,

M. P. Coffey
CFO and Strategic Planning Vice President

Specifically, Nevada Bell certifies the following:

- 1) Nevada Bell has an effective cost accounting manual ("CAM") filing treating payphones as a nonregulated service.
- 2) Nevada Bell has an effective interstate CCL tariff reflecting a reduction for deregulated payphone costs and reflecting additional multiline subscriber line charge ("SLC") revenue.
- 3) The Public Service Commission of Nevada has determined that Nevada Bell's intrastate tariffs do not contain subsidies for the recovery of any costs for its payphone services.
- 4) Nevada Bell has deregulated and reclassified the value of payphone customer premises equipment ("CPE") and related costs as required in the Payphone Orders.
- 5) Nevada Bell has in effect intrastate tariffs for basic payphone services (for "dumb" and "smart" payphones).
- 6) Nevada Bell has in effect intrastate tariffs for unbundled functionalities associated with those lines.
- 7) Nevada Bell has filed interstate tariffs for unbundled functionalities associated with those lines.

- 8) Nevada Bell has an approved Comparably Efficient Interconnection (CEI) Plan for basic payphone services and unbundled functionalities.
- 9) Nevada Bell's intrastate payphone service provider tariffs meet the "new services test" as described in 47 C.F.R. Section 61.49(g)(2). Nevada Bell submitted data to the Public Service Commission of Nevada by letter dated April 15 and reconfirmed this information by letter dated May 19.

Accordingly, Nevada Bell is in full compliance with the requirements set forth in the Payphone Orders. It is, therefore, eligible to receive compensation from carriers as of April 15, 1997. In accordance with the Payphone Orders, carriers are required to pay flat rate compensation until October 7, 1997, and per call compensation thereafter. Nevada Bell's compliance with the above requirements is further detailed in the attachment to this letter, together with copies of the relevant orders.

Nevada Bell hereby certifies that it has met the requirements established by the Federal Communications Commission to receive compensation from carriers. These requirements are set forth in the Report and Order (September 20, 1996), the Order on Reconsideration (November 8, 1996), and subsequent orders (April 4, 1997 and April 15, 1997), collectively the ("Payphone Orders"). Specifically, Nevada Bell certifies the following:

- 1) Nevada Bell has an effective cost accounting manual ("CAM") filing treating payphones as a nonregulated service.
- 2) Nevada Bell has an effective interstate CCL tariff reflecting a reduction for deregulated payphone costs and reflecting additional multiline subscriber line charge ("SLC") revenue.
- 3) The Public Service Commission of Nevada has determined that Nevada Bell's intrastate tariffs do not contain subsidies for the recovery of any costs for its payphone services.
- 4) Nevada Bell has deregulated and reclassified the value of payphone customer premises equipment ("CPE") and related costs as required in the Payphone Orders.
- 5) Nevada Bell has in effect intrastate tariffs for basic payphone services (for "dumb" and "smart" payphones).
- 6) Nevada Bell has in effect intrastate tariffs for unbundled functionalities associated with those lines.
- 7) Nevada Bell has filed interstate tariffs for unbundled functionalities associated with those lines.

- 8) Nevada Bell has an approved Comparably Efficient Interconnection (CEI) Plan for basic payphone services and unbundled functionalities.
- 9) Nevada Bell's intrastate payphone service provider tariffs meet the "new services test" as described in 47 C.F.R. Section 61.49(g)(2). Nevada Bell submitted data to the Public Service Commission of Nevada by letter dated April 15 and reconfirmed this information by letter dated May 19.

Accordingly, Nevada Bell is in full compliance with the requirements set forth in the Payphone Orders. It is, therefore, eligible to receive compensation from carriers as of April 15, 1997. In accordance with the Payphone Orders, carriers are required to pay flat rate compensation until October 7, 1997, and per call compensation thereafter. Nevada Bell's compliance with the above requirements is further detailed in the attachment to this letter, together with copies of the relevant orders.
